1. About Equity Trustees Limited

*The
Responsible
Entity*

Equity Trustees Limited

EQT was established in 1888, by an Act of the Victorian Parliament, to provide trustee and executor services. EQT has evolved into a sophisticated financial services provider offering a broad range of products and services to a diverse client base. In addition to traditional trustee and estate management duties, EQT's range of services includes portfolio management, superannuation, philanthropy and responsible entity services for external fund managers.

EQT's responsibilities and obligations as the Responsible Entity of the Fund are governed by the Fund's constitution ("Constitution") as well as the Corporations Act and general trust law. As Responsible Entity, EQT is solely responsible for the management of the Fund. EQT has appointed Spectrum Asset Management Limited ("Spectrum") as the Investment Manager of the Fund.

EQT is committed to acting in the best interests of its clients via wealth management solutions over a range of Asset Classes carrying different risk profiles.

*The
Investment
Manager*

Spectrum Asset Management Limited

Spectrum is a Sydney based licensed investment manager that was established in 2001 for the sole purpose of managing investments in credit securities, by way of specialised investment funds or specific mandates for wholesale investors. Spectrum is an active manager of credit who seeks to understand the underlying credit risk and other risks associated with credit securities to make decisions for the medium term. Spectrum's investment team operates as an investment partnership with each member of the group bringing a specific area of expertise.

2. How the Spectrum Strategic Income Fund works

The Fund is a registered managed investment scheme. The Fund is governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however it does not give investors an interest in any particular asset of the Fund.

All amounts are in Australian dollars.

*Applying for
units*

You acquire units in the Fund by completing the application form ("Application Form") for this Fund and sending the Application Form together with the investment amount and supporting documents to **Equity Trustees Limited**

GPO Box 2307
Melbourne Vic 3001
AUSTRALIA

or by making an application through the mFund Settlement Service ("mFund") by placing a buy order for units with your licensed broker.

The minimum initial investment amount for the Fund is \$5,000 (unless otherwise determined by the Responsible Entity).

The price at which units are acquired ("Application Price") is determined in accordance with the Constitution. The Application Price on a Business Day (as defined in the Reference Guide) is, in general terms, equal to the Net Asset Value, divided by the number of units in issue.

The Application Price will vary as the market value of assets in the Fund rises or falls. No interest is earned on application monies.

*Making
additional
investments*

You can make additional investments into the Fund at any time by sending your additional investment amount together with a completed Application Form to **Equity Trustees Limited**

GPO Box 2307
Melbourne Vic 3001
AUSTRALIA

Or by making application for units through mFund.

The minimum additional investment into the Fund is \$1,000 (unless otherwise determined by the Responsible Entity).

Distributions

The Fund usually distributes income quarterly at the end of March, June, September and December. Distributions are calculated on the last day of the distribution period (31 March, 30 June, 30 September and 31 December), and are normally paid to investors within 14 days of the period end; although the distribution at the end of the financial year may take longer. EQT may amend the distribution frequency without notice. An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period and the distributable income of the Fund.

In some circumstances, where an investor makes a large withdrawal request (e.g. 5% or more of the units on issue at the start of the relevant distribution period), their withdrawal proceeds may be taken to include a component of distributable income.

If you are an investor in the Fund, you can have your distribution reinvested back into the Fund or have your distribution directly credited into a nominated Australian dollar denominated Australian bank account. If you do not make a direction, your distribution will be reinvested. There is no Buy Spread on distributions that are reinvested.

Access to your money

Investors in the Fund can withdraw their investment by completing a written request to withdraw from the Fund and mailing it to

Equity Trustees Limited

Client Services Registry Team

GPO Box 2307

Melbourne Vic 3001

AUSTRALIA

Or sending it by fax to 613 8623 5395 or

- making an withdrawal request through mFund by placing a sell order for units with your licensed broker.

The minimum withdrawal amount is \$1,000, unless otherwise determined by the Responsible Entity or the withdrawal is for the balance of your investment. Once we receive a withdrawal request, we may act on the withdrawal request without further enquiry if:

- the withdrawal request bears an account number or investor details and (apparent) signature(s), or the investor's authorised signatory's (apparent) signature(s); or
- if the withdrawal request is received via mFund.

The Responsible Entity will generally allow investors in the Fund to access their investment within seven Business Days of receipt of a withdrawal request. Withdrawal proceeds will be paid to an investor's nominated bank account or, where the request is received via mFund, to the investor's licensed broker. However, the Constitution allows EQT to make payment up to 30 days after acceptance of a withdrawal request. This period may be extended by a further 30 days if EQT considers that it is in the best interests of the Fund's investors to do so or a longer period if it is not possible for EQT to make the payment due to one or more circumstances outside its control).

The price at which units are withdrawn ("Withdrawal Price") is determined in accordance with the Constitution. The Withdrawal Price on a Business Day is, in general terms, equal to the Net Asset Value, divided by the number of units in issue. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

EQT reserves the right to fully redeem your investment if your investment balance in the Fund is below the minimum balance or will fall below the minimum balance as a result of accepting your withdrawal request. At the date of this PDS, the minimum balance is \$4,000. EQT is not obliged to accept a withdrawal request and may deny a withdrawal request where, for example, accepting the request would cause the Fund to cease to be liquid or where the Fund is not liquid (as defined in the Corporations Act). When the Fund is not liquid, an investor can only withdraw when EQT makes a withdrawal offer to investors in accordance with the Corporations Act. EQT is not obliged to make such an offer.

Unit pricing discretions policy

EQT has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available to investors free of charge on request to EQT.

Additional information

The Fund is a disclosing entity as defined by the Corporations Act, and is subject to regular reporting and disclosure obligations. Investors will have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report;
- any half yearly financial report lodged with Australian Securities & Investment Commission ("ASIC") after the lodgement of that annual financial report but before the date of this PDS; and

3. Benefits of investing in the Spectrum Strategic Income Fund

The Fund is an actively managed portfolio of debt and hybrid debt securities.

The significant benefits and features of investing in the Fund include:

- access to the expertise of an active manager of credit who utilises an investment process that combines fundamental research with disciplined portfolio construction and risk controls;
- access to a diversified portfolio of debt and hybrid debt securities;
- access to investments which may only be offered to institutional investors;
- strong focus on income generation, with some opportunity of capital gain; and
- regular reporting to keep you up to date on your investments.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The table below highlights the significant risks you should consider when deciding whether to invest in the Fund. You may want to consider these risks in light of your risk profile. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

We do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may also change in the future.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

Credit risk

The risk that an issuer of a security in which the Fund invests will be unable to meet its obligations under the terms of the relevant security is usually referred to as credit risk. These obligations may include scheduled interest payments and or repayment of principal. Spectrum aims to manage these risks with careful analysis of research from many sources and making qualitative and quantitative credit assessments of issuers of the security using available research.

Extension risk

The risk that issuers may elect to extend the repayment of certain securities and pay a higher interest rate to the Fund. While the issuer will pay a higher rate of interest to the Fund, the delayed repayment of capital of a security may cause a delay in the reinvestment of capital.

Hybrid securities

Hybrid securities have the characteristics of both fixed interest (debt) and equity investments. They have an exposure to interest rate risk as well as market risk in relation to equity markets. Some hybrid securities are able to be converted from convertible bonds into shares. There is the added risk they may not be readily exchanged for cash or an equivalent asset value.

Inflation risk

Inflation risk is the risk that returns will not be sufficiently higher than inflation to enable an investor to meet their financial goals.

Interest rate risk

Changes in official interest rates can directly and indirectly impact on investment returns. Please refer to the Reference Guide for further details on interest rate risk.

Issuer risk

The value of investments can vary because of changes to management, product distribution or the issuer's business environment.

Key personnel risk

Spectrum is currently dependent upon the expertise of their existing management team – the performance of the Fund could be adversely affected if key members of the investment team do not continue to provide their services.

Liquidity risk

There may be times when securities may not be readily sold (for example, in a falling market where some traded securities may become less liquid) and investors may not be able to withdraw their investments in the Fund. Please refer to the Reference Guide for further details on liquidity risk.

Management risk

The Fund is subject to management risk because it is an actively managed investment portfolio. Investment techniques and risk analyses will be used in making investment decisions for the Fund, but there can be no guarantee that these will produce the desired results.

Market risk

Changes in legal and economic policy, political events technology failure, economic cycles, investor sentiment and social climate can all directly or indirectly create an environment that may influence (negatively or positively) the value of your investment in the Fund. Please refer to the Reference Guide for further details on market risk.

Reinvestment risk

This is the risk that arises if the Fund receives significant amounts of cash from securities that mature or are redeemed and there is a lack of suitable securities for the Fund to invest in, within the terms of the investment model.

Sector specific risk

Companies in certain industries face unprecedented change and competitive pressures. Accordingly, the securities of these companies may be subject to high price volatility. These companies face competition from technologies and processes (being developed or to be developed in the future) which may make their products or services obsolete.

Security selection risk

While Spectrum expects to add value from its stock selection efforts, this may not be the case especially over the short-term. Investors might therefore consider an investment in the Fund as just one element of a well diversified portfolio. Spectrum may make poor investment decisions resulting in sub-standard returns (for example, where Spectrum gains exposure to a security on behalf of the Fund that significantly underperforms relative to other securities). This may be brought about by a change of employees at Spectrum or a change of investment manager. Security selection risk is mitigated to some extent by the knowledge and experience of Spectrum. Credit rating downgrades result when ratings agencies lower their rating on a security – for example a ratings change from A to BBB. Downgrades are usually accompanied by price declines as the market requires higher credit margins.

Sovereign risk

This is the risk that may result from changed circumstances of a particular country. The risks may be perceived or actual, relating to ratings changes, perceptions of default, or currency movements and may impact the liquidity and trading spreads of securities.

Structural risk

This is the risk that structured securities may not perform as expected. This may be due to changes in credit ratings, non performance of underlying asset pool(s) or counterparty default and may result in non payment of interest, or delay / non payment of capital.

5. How we invest your money

Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment time frame.

Spectrum has developed an investment process that has been specifically tailored for Australian market conditions. The key elements of the investment process are: <ul style="list-style-type: none">• taking a global macroeconomic and political view of the likely future level of interest rates;• using quantitative techniques and credit research to identify stocks that the Investment Manager expects to offer a yield premium in excess of the market for a particular creditworthiness;• taking a medium term investment horizon view, whilst seeking to maintain appropriate liquidity requirements associated with a managed fund;• adhering to a portfolio based investment process that features a disciplined approach to diversification and a comprehensive limit system; and• engaging in active management of credit. Spectrum utilise an investment process that combines fundamental research with disciplined portfolio construction and risk controls. Various analysis techniques are applied to make decisions about the selection of individual investments as well as changing the mix of securities held in the portfolio on an ongoing basis. Spectrum supplements its own research with external research from local and international sources.
<i>Investments held</i>	Fund investments will be comprised of assets drawn from the following security types: <ul style="list-style-type: none">• listed and unlisted corporate debt, financial, government and government-related debt securities;• listed hybrid debt securities and convertible notes issued by corporate issuers and financial issuers;• investment grade collateralised mortgage and debt obligations, residential and commercial mortgage backed and other asset backed securities;• international government agency securities issued in Australian dollars; and• term deposits and bank certificates of deposit and bankers' acceptances.
<i>Investment</i>	The Fund will predominantly adhere to the following investment restrictions. If the portfolio falls outside of these limits due to changes in ratings or values, Spectrum will seek to rebalance the

<i>Fund performance</i>	Up to date information on the performance of the Fund will be available by calling the Investment Manager on +612 9299 2288. A free of charge paper copy of the information will also be available on request. Past performance is not necessarily a guide to future performance.
<i>Changes to the Fund</i>	EQT reserves the right to terminate the Fund or change the Fund's investment objectives (including the benchmark, asset allocation, investment objectives and investment style and approach) and/or replace the Investment Manager without providing prior notice to investors in some cases. We will inform investors of any material changes to the Fund in accordance with the law.

6. Fees and costs

DID YOU KNOW?	
Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.	
For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100 000 to \$80 000).	
You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.	
Your employer may be able to negotiate to pay lower administration fees. Ask the fund or your financial adviser.	
TO FIND OUT MORE	
If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed investment fee calculator to help you check out different fee options.	

The information in the following table can be used to compare costs between this and other managed investment schemes. Fees and costs are deducted from the assets of the Fund and reduce the investment return to unit holders.

Type of fee or cost	Amount
Fees when your money moves in or out of the Fund	
Establishment Fee	Nil
Contribution Fee	Nil
Withdrawal Fee	Nil
Termination Fee	Nil
Management Costs	
The fees and costs for managing your investment	0.75% p.a.* (inclusive of GST less RITC) of the Net Asset Value

* The amount of this fee can be negotiated. See "Differential fees" below.

Additional Explanation of Fees and Costs

<i>What do the Management Costs pay for?</i>	The Management Costs include Responsible Entity fees, investment management fees, custodian fees, administration fees and other expenses. It is calculated and accrued daily based on the Net Asset Value of the Fund. The accrued fees are paid in arrears from the Fund at the end of each month. The Management Costs reduce the Net Asset Value and are reflected in the unit price.
<i>Buy/Sell</i>	The Buy/Sell Spread reflects the estimated costs incurred in buying or selling assets of the Fund when

<i>spread</i>	investors invest in or withdraw from the Fund. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy/Sell Spread is paid into the Fund and not paid to EQT or the Investment Manager. The Buy/Sell Spread, at the date of this PDS, is 0.15% upon entry (\$7.5 for every \$5,000 invested) and 0.15% upon exit (\$7.5 for every \$5,000 withdrawn). The Buy/Sell Spread can be altered by the Responsible Entity at any time.
<i>Can the fees change?</i>	Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. We have the right to recover all proper and reasonable expenses incurred in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the Management Costs. Miscellaneous expenses such as legal, postage and audit may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law. The Constitution defines the maximum fees that can be charged for fees described in this PDS.
<i>Differential fees</i>	The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with investors who are Wholesale Clients.
<i>mFund</i>	Warning: If you are transacting through mFund your stockbroker or accredited intermediary may charge you additional fees (see their Financial Services Guide).

Example of annual fees and costs

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

Example –Spectrum Strategic Income Fund		BALANCE OF \$50,000 WITH TOTAL CONTRIBUTIONS OF \$5,000 DURING THE YEAR*
Contribution Fees	Nil	For every \$5,000 you put in, you will be charged \$0.
Plus Management Costs	0.75 % p.a.	And , for every \$50,000 you have in the Fund you will be charged \$375 each year.
Equals Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, then you would be charged fees of: \$375 What it costs you will depend on the fees you negotiate.

* Please note that the Fund has a minimum additional investment amount of \$5,000. This example assumes that the \$5,000 contribution is made on the last day of the year and the management costs are calculated using the balance of \$50,000 only.

** This fee may include an amount payable to a financial adviser and additional fees may apply such as a buy/sell spread.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on your investment in the Fund.

Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements. For

more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

When you sign this Application Form you declare that you have read and agree to the declarations above.
